

Jamille B. Añonuevo

Full Stack Web Developer

0910-340-1844 | anonuevojamille@gmail.com

Sto. Domingo, Albay

Portfolio: <https://hcktips-389f6.web.app>

Professional Summary

Full Stack Web Developer and Cum Laude Information Systems graduate with hands-on experience across freelance, internship, and corporate environments. Skilled in building responsive, secure, and maintainable web applications using Angular, PHP, Laravel, Next.js, Supabase, MySQL, and PostgreSQL. Experienced in frontend and backend development, database integration, SQL optimization, troubleshooting, and deployment support. Uses AI-assisted development tools to speed up prototyping and debugging while keeping code clean, scalable, and practical for real-world use.

Technical Skills

Programming Languages: PHP, HTML, CSS, JavaScript, TypeScript, SQL, Python (basic)

Frameworks and Libraries: Angular, Next.js, Laravel, Tailwind CSS, Bootstrap

Tools and Technologies: Git, Node.js, Visual Studio Code, Supabase

Databases and Platforms: MySQL, PostgreSQL, WordPress, Firebase (basic)

Core Strengths: Full Stack Development, Responsive Web Design, REST API Integration, Database Management, SQL Query Optimization, Application Support, Troubleshooting, Cross-Browser Compatibility

Soft Skills: Problem-Solving, Team Collaboration, Time Management, Adaptability, Willingness to Learn

Professional Experience

IT Developer

Rural Bank of Guinubatan Inc.

October 2025 – June 2026

- Developed, maintained, and supported banking-related applications and internal systems.
- Managed databases, optimized SQL queries, and resolved system and application issues.
- Monitored system performance, investigated incidents, and implemented fixes to improve reliability.
- Assisted in software deployment, testing, and maintenance of system enhancements.

Full Stack Web Developer

Quanby Solutions Inc.

July 2024 – June 2025

- Developed and maintained web applications using Angular, Supabase, and modern web technologies.
- Built responsive user interfaces and ensured cross-browser compatibility across supported devices.

- Collaborated with the team using Git and contributed to code reviews and continuous improvements.
- Improved database performance and application efficiency through query optimization and system enhancements.

Freelance Web Developer

2023 – August 2025

- Designed and developed responsive websites and custom web applications for multiple clients.
- Built full stack solutions using Angular, PHP, Tailwind CSS, and Supabase.
- Handled frontend development, backend logic, database integration, and performance optimization.
- Used AI-assisted coding tools to reduce development time by up to 30% while maintaining clean and efficient code.

Selected Projects

Marino World Website

Internship Project – Quanby Solutions Inc.

- Built a content-driven platform for maritime news and events using Next.js, Prisma, and Supabase.

RFQ Business Permit Document Management System

Internship Project – Quanby Solutions Inc.

- Developed an Angular and Supabase-based system for document submission, status tracking, and approval workflows.

Automated Alert System

Freelance Project – RFU-5 Bicol

- Integrated an Angular frontend with a Kotlin-based Android backend for direct SIM-based SMS alerts.

PeachPerfect Hotel Management System

Freelance Capstone Project

- Developed a Laravel-based hotel booking and guest management system with payment tracking features.

Real-Time Jeepney Locator & Passenger Monitoring System

Capstone Project

- Built a real-time tracking and passenger monitoring system using PHP, JavaScript, and C++.

E-commerce Website – ALBAY Alingatong Herbal Roots

Freelance Project

- Developed an e-commerce website with shopping cart functionality using PHP and MySQL.

Education

Bachelor of Science in Information Systems

Southern Luzon Technological College Foundation Inc.

2021 – 2025

Honors: Cum Laude

Computer Systems Servicing

Sto. Domingo National High School

2020 – 2021

Achievements

- Cum Laude, Bachelor of Science in Information Systems
- Best in Capstone Project – Real-Time Jeepney Locator & Passenger Monitoring System
- Service Awardee
- Recognition for Proficiency in Computer Programming and Web Development
